***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3, and 5-6, drawn to a first wiping cloth.

Group II, claim(s) 2 and 4, drawn to a second wiping cloth.

Group III, claim(s) 7, 9, and 11-13, drawn to a first method of making a wiping cloth.

Group IV, claim(s) 8 and 10, drawn to a second method of making a wiping cloth.

2. The special technical feature of group I is a nonwoven fabric comprising splittable conjugate polyester fibers comprising polyoxyalkyleneglycol. The foregoing special technical feature is shown in the prior art of JP-10140471, JP-4289224, JP-11131350, and JP-7207561, all cited in the International Search Report. Therefore, there is no contribution made over the prior art. Hence there is no unity of invention and lack of unity is held by the examiner.

3. A telephone call was made to Felix D'Ambrosio on 7/16/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1771

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
